Trade dashboard

- ◆ A single, global view – of your trade transactions and outstanding portfolio.
- ◆ Convenient and user-friendly highlights for your attention – such as an import DC that's about to expire or an Import Presentation that's due for payment.
- ◆ Customisation options for your preferences – like adding and reordering widgets, viewing widgets as graphs and updating account selection for each.
- ◆ All widgets are interactive – simply click within the widget and it will take you to the specific transaction(s) or action.

Transaction management

Our Outstanding transactions, Pending transactions and application pages offer a number of features to help you manage your transactions efficiently:

A consolidated view of your live transactions in one place – across multiple locations.

Search – with intuitive filtering through transactions to find the one you're looking for.

Connected transactions are easily visible – such as all the Import Presentations related to an Import DC.

Export your data to Excel – based on your custom view, or with your entire transaction data set.

Intelligent approval process – 'Pending transactions' presented with the option for approvers to authorise, send to repair or change before submitting. Fast and bulk authorisation also enables approvers to select multiple transactions for authorisation.

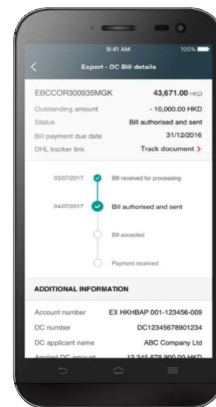

Customise your view – by adding new field columns as your preference.

Applications made easier – create trade applications from a range of templates or from scratch, using supporting documentation as necessary.

Amendments – view live transactions, their real-time status and request amendments.

Get real-time FX data and book at application submission – using the Get Rate feature for eligible transactions¹

Receive transaction alerts – customise which alerts you wish to receive on your transaction statuses

HSBCnet Mobile Trade Transaction Tracker for viewing your transactions' real-time status on your mobile device, wherever you are.

HSBCnet Mobile authorisation – to authorise your trade transactions on the go using your mobile device¹.
